It looks good to me Greg. The facility and the office are actually both in Adams County. The county line goes through the Utz potato chip factory.

Brian, let me know if you want to make any comments or suggestions on this report. The only comment I have is that the facility (although maybe not the office) is actually in Adams County, not York.

Once this report is finalized I will send individual well test results to each resident.

Thanks,

Greg

Greg,

Attached for your review is the draft trip report for the Miller Chemical Homewell Site. This trip report summarizes the activities and results of the residential well and spring samples collected from residences located near the Site in June 2015. A pdf version of the report which include all figures and tables is provided. Also provided is a MS Word version of the report in case you'd prefer to comment directly in the document in track changes. The Validated Analytical results package will be included in the final submission of the report.

Please let me know you have any questions or comments regarding this report. Your comments and edits will be addressed for final submission.

Thanks,

**Ex. 4 - CBI**
